

CALL FOR SUBMISSIONS

Presenting the Human Factors and Ergonomics Society of Australia's annual conference for 2025. This conference promises an enriching blend of face-to-face presentations, impactful and engaging discussions, and poster presentations, on contemporary issues shaping how we view and address complexity through a human factors lens. Get ready for a thought provoking experience at our 2025 HFESA Conference.

We invite submissions that encapsulate the essence of human factors in complex systems. We invite topics that encompass research, practice, challenges, and opportunities that show the impact human factors and ergonomics can make now and into the future.

FACTORS IN COMPLEX SYSTEMS

COMPLEXITY SCIENCE

- Systems thinking
- Systems evolution & adaptation
- Emergence
- Patterns & networks

APPLICATION IN COMPLEX SYSTEMS

- Change management
- Implementation
- Work health & safety
- Psychosocial topics
- Work and system design
- Tools & techniques for assessment & evaluation

COMPLEX FUTURE SYSTEMS

- Artificial intelligence
- Sustainability
- Climate change
- Emerging trends
- Commercial determinants of health

ABSTRACT SUBMISSION

RESEARCH & POSTER PRESENTATIONS

300 words: Background and Aims, Methods, Results, Discussion and Implications

INDUSTRY CASE STUDIES

Projects 300 words: Context, Aim, Approach, Results and Implications

WORKSHOPS

300 words: Aim, Approach, and Intended Outcomes

FORMAT: In-person attendance. Face-to-Face presentations only, thank you!

KEY DATES

SUBMISSIONS OPEN
28 FEBRUARY 2025

SUBMISSIONS CLOSE
16 MAY 2025

NOTIFICATIONS BY:
4 JULY 2025
